part 1: The date and time at which you already completed this demo, and briefly describe any challenges that arose during the demo.

The demo is completed at 3pm on November 21st (Saturday).

The biggest challenge was making a clear presentation online when sometimes the voice might not be clear and we need to have two Spotify user accounts to display the chat feature of our app.

part 2: A link to the github repository where your entire codebase resides. Tag which file revisions were shown in the demo.

We tag the revisions shown as "T3"
